Manufacturers of quality farm equipment since 1977.

**ASPARAGUS CART
GVF 11020
MOTORIZED SECTION
AND
WING SETS**

The **GVF Asparagus Cart** boasts a rugged tube frame built to last for many years. Yet, this cart is light and nimble making it easy to maneuver.

- Rugged tube frame construction.
- Light and easy to maneuver.
- Built for easy maintenance.
- External fuel and oil tanks with screens in filler caps and drains in the bottom of the tanks.
- Fuel system has inline 10 micron filter to prevent contamination.
- Kawasaki 16.4 HP air cooled engine.
- Speed: 0 to 9 MPH
- Built in catch pan with drain plugs under the engine and hydraulic system to catch any possible leaks.
- Overhead canopy over the driver with integrated storage.
- Driver's seat is padded and fully adjustable - up and down, front and back.
- Raised front axle allows for good visibility while picking.
- Lots of storage for lugs.

- Custom options are available including the add-on of the GVF Work Platform pictured at right.
- Conversion of the asparagus cart into the work platform is completed simply with nuts & bolts. No cutting or welding or other adaptations are needed.

One worker can control the speed and steering at thier level.

Optional - GVF 11005 Work Platform

Wings

- The wings can be folded up for transporting the machine.
- Adjustable gauge wheel.
- Seat cushions for each picker.
- Adjustable feet stirrups.
- Sun-shade overhead.

Sun-shade collapses down.

Use pins to secure sun-shade frame in place.

Two people can lift the wing and then one can pin it in place.

Hydraulic System

These features come standard to provide you with years of use.

- Hydrostatic drive with closed loop axial piston pump mechanically controlled.
- Wheel motors - radial piston with integral park brake.
- Hydraulic filter
- Oil cooler
- Hot oil shuttle to keep closed loop cool and supplied with fresh oil.

Designed with ease of maintenance in mind.

- All pivot points are accessible for quick greasing.
- Steering system incorporates DX bushings and can be easily taken apart for maintenance.
