

Gillison's Variety
Fabrication, Inc.
Manufacturers of quality farm equipment since 1977.

**GVF 8150
FRONT 3 PT HITCH
CAT II**

- 1500 lbs lift capacity cat II
- The design is similar to most rear hitches. The hitch has a rockshaft to lock both sides together to make sure it lifts evenly.
- Features adjustable lift tie rods that connect to the rockshaft so the implement can be leveled.
- Ball sockets allow the arms to move in and out for easy hook up or if the implement does not have cat II standard mounting.
- There are multiple holes for the top link to ensure that correct geometry is achievable.
- 24" of lift height
- Gravity down operation
- Adjustable sway bars

**Unmatched Versatility
&
Dependability**
